

**School-based fluoride RINSE program
PARENT PERMISSION FORM (No Kindergarteners)**

5 things every parent should know about fluoride:

1. Fluoride can prevent tooth decay (cavities).
2. The American Dental Association and the American Academy of Pediatrics recommend school fluoride programs.
3. Your child can get FREE fluoride at school through Oregon's state Oral Health Program.
4. The fluoride rinse can be added to your child's routine. It does not matter if your child has other sources of fluoride.
5. Always follow the advice of your dentist. For more information, please contact us at 971-673-0339 or visit our website at <http://public.health.oregon.gov>.

Did you know?

Tooth decay is almost 100 percent preventable. Keep your child smiling by brushing and flossing every day!
